

I want to start this by saying I don't hate Charlie aka ChannelGreyVEVO. I don't want them to be hunted down. I just want to make it clear that I'm saying this to explain what happened between us. I am in a vulnerable position. I have been for months.

So for a while last year, I was dating them. At first I thought this was a happy relationship. That it would last. That they wouldn't hurt me the way they have. Then I made the mistake of letting them come over to my house.

It was very clear that sex was not a thing that could happen. They also told me that I could wake them up if I had a nightmare. I had a nightmare one night, and I went downstairs to wake them up. At first, it seemed like they were going to comfort me, then the following happened:

Charlie: "Donnie?"

Me: "Yea?"

Charlie: *Pulls out their dick*

As you can imagine, I was in shock. I turned my head away and said that I wasn't ready. They proceeded to tell me "but we're alone". I had to say "no" again. They kept getting upset upon realizing they fucked up, and then said "can I at least touch your belly?" and wouldn't stop getting upset until I let them.

Afterwards, I went back to lay down and I was in extreme pain. Just a few weeks earlier, I had been raped, and I got flashbacks to when that happened. I had no idea how to process the situation and caught myself Googling ways to kill myself, and upon catching myself I texted a suicide hotline. I only had 3 hours of sleep that night, and I had to pretend everything was okay the next day. I had to pretend that didn't happen. In fact, I denied myself that happened.

There were also times in our relationship where they made me stop talking about my emotional problems. Saying that it wasn't working and I needed to cope without people. Their response to finding out that I was suicidal was this exact quote: "We've been over this so many times". They continuously made me feel isolated. I couldn't show weaknesses. I had never felt as alone as near the end of my relationship with Charlie.

They also said many things behind my back. They said that I don't want to get better, they said I was the reason they felt lonely, and that I insisted on having problems with self-blaming thoughts. I could tell they thought this from the way they talked to me. They made it so that I couldn't say to my own significant other how I felt.

I have many screenshots of them gaslighting me, them treating me wrong, and some of the things they did behind my back. If you need any examples of such, you may DM me about it. I feel severely degraded, depressed, and stressed out. On the night of the break-up, I had to use a suicide hotline twice and I was awake for 38 hours straight. I'm sorry this is so much to dump. I know this is a lot. I know many of us were once friends with them. But this behavior was not okay. They cannot keep my mouth shut. They cannot control me anymore. I am stronger without them. I really do wish them to improve, but I can't be here for it.

Thank you everyone for listening. If you have a story like this, don't be afraid to speak up. Everyone who has supported me, thank you. I would not be here without you guys.

~Donnie
